

CIO For Hire

Your Challenge

- You would benefit from an independent review of your I/T organization and actionable suggestions for improvement
or
- Your company has an immediate need for information technology leadership
or
- You need time to find the right CIO to fit your organization.

CIO for Hire Services

Look to Information Advantage to provide the following CIO services:

Bridging the Leadership Gap

We will provide ongoing leadership for technical projects and staff. We keep critical projects on track while providing business process, technical, or infrastructure consulting.

Short-Term Management, Long-Term Vision

As we gain an understanding of your organization, we provide long-term strategic advice and direction. We'll work to understand your business strategy, and help you assess current initiatives to ensure your I/T investment.

I/T Administration

Let us help you gain a clear understanding of your I/T investments by providing an I/T budget, controlling services, or assisting with vendor contract negotiation.

Benefits

- Continued organizational focus yielding ongoing productivity.
- Needed time to secure a CIO to fit your organization.
- Independent recommendations for your information technology organization – its strategy, its technology, its staff.
- Executive level I/T leadership without investing in a full-time professional.

"Information Advantage leadership will keep your I/T operation on track while providing ongoing organizational improvement. With Information Advantage leadership on the job, your I/T department will succeed!"
